• Experience •

Network Administrator
JM Eagle (formerly PWEagle)

Dec 2005 – Present
Livingston, NJ

Responsible for wide-area network infrastructure for 28 nation-wide locations, most with 24x7x365 operations. Conduct network design, installations, upgrades, monitoring, trouble resolution and maintenance. Implemented server virtualization, vpns, wifi, and security in environments ranging from a commercial data center to manufacturing shop floors.

Systems Administrator
USPoly Company (acquired by PWEagle 2005)

Feb 1998 – Aug 2000, Apr 2002 – Dec 2005
Shawnee, OK

Designed, implemented and administered a redundant, diverse network to provide 24x7 access to corporate IT resources. Supported 100+ users of enterprise UNIX system, e-mail, file and print services at four national locations. Recruited April 2002 by CFO to return.

Systems Engineer
Sprint

August 2000 – March 2002
Oklahoma City, OK

Provided post-sales level 3 engineering support, circuit installation, troubleshooting and monitoring of customer wide-area networks.

Microcomputer and Network Supervisor
Oklahoma Baptist University

August 1995 – February 1998
Shawnee, OK

Managed a 500+ node Novell LAN of Windows and Macintosh clients on campus of various classroom, office, and dormitory buildings, serving 1200+ students and faculty. Supervised team of technicians, trained users, and provided all levels of support.
